

Renovate and Repair Aging Schools

Build for Future Growth

Renovate and Repair Aging Schools

Many school buildings are in need of significant repairs with aging and, in some cases, leaking roofs, outdated plumbing and boilers in desperate need of replacement. In addition, the District has 49 temporary portable classrooms, some of which are over 40 years old.

The Bond would fund:

- HVAC, plumbing and electrical upgrades district wide, creating more efficient buildings
- Significant remodeling at Hillsboro High School and Reedville Elementary School
- Replacement of 15 temporary portable classrooms in the poorest condition

Build for Future Growth

Current estimates are that in the next 10 years, enrollment in the Hillsboro School District will increase by 1,900 students. Some of these students will move into portions of the District that already lack adequate space in existing school buildings, making a difficult overcrowding problem even worse, while others will be moving into new developments in our growing community.

The Bond would fund:

- Expansion of Evergreen Middle School and Glencoe High School
- Construction of one new elementary school in North Plains and one new elementary school in South Hillsboro
- Replacement of Brookwood Elementary School

The bond would construct additional elementary schools where future growth is happening, as well as expand two existing middle and high schools.
