*Impact ratio is calculated by taking into account the number of students who are highly mobile, economically disadvantaged, ever English language learner, and who are members of an underserved racial or ethnic group. The higher the number, the more impacted a district is. (Rates from 2013-14 school year.)

**Oregon's data includes 51 students in the Modified Diploma count who are participating in the Post Graduate Scholars program

^aDistrict numbers include 33 students who were not enrolled in any of the District's above-listed schools (MEC East, Transition Program, Harkins House, SPED placements, etc.).

^bOther completers includes students earning an Adult HS Diploma, Extended Diploma, or GED.

^cOther Non-Completers could be drop-outs or students who have not yet declared their plans.

^dThe number of drop-outs and drop-out rate are calculated using the NCES model, which counts the total number of students in grades 9-12 who drop out in any given year, not just seniors who are members of the cohort. Therefore, those numbers/rates should not be expected to correlate directly to any of the cohort graduation data.

¹2013-14 was the first year in which modified diplomas were added to the numerator in the grad rate calculation.

²The "with modified" row is intended to show what the grad rate would have been for the indicated year if the grad rate calculation would have included modified diplomas (as it does from 2013-14 - forward).

**Hillsboro School District's actual 2015-16 graduation rates were higher than what was reported by the state due to a data anomaly that was not corrected in time for the publishing of the rates. ODE's reported grad rate for HSD in 2016 was 77.94%, but it was actually 81.68%.

*Remember that non-completers count students in the cohort who are continuing in enrollment and those who simply have not yet earned a diploma. The dropout count is for all students in a given year in grades 9-12, not just seniors, so that number cannot accurately be subtracted from the non-completer count.

**Data anomaly in 2015-16 where 88 graduates were mistakenly counted as non-completers. First number is officially-reported ODE data and second is corrected HSD data.
