

High School Distance Learning Schedule

Hillsboro School District will still follow the district adopted schedule, including the Day1/Day 2 alternating schedule for high schools.

“Periods” are options for synchronous learning, but not required. All synchronous learning sessions will be recorded for students to access at a later time. These may also be suggested learning times for students and families to keep a consistent schedule.

Office Hours: teachers would be available for one hour per day, serving students who would normally attend classes that day. Look for communication from your individual teachers for their specific office hours.
