

Farmington View Parents for Academic Excellence (FVPAE) is so excited to be celebrating over 25 years of math excellence at Farmington View Elementary School! In 1996 we almost lost our accelerated math program due to budget cuts until parents, students, and community members came together to create FVPAE. FVPAE is a non-profit organization whose sole purpose is fundraising for our school's unique math program, which provides a dedicated math specialist on-staff at Farmington View.

The presence of an accelerated math teacher benefits ALL of our students by reducing class sizes during math instruction, allowing for more personalized instruction, and preventing teachers of split-grade classes from needing to cover multi-grade curriculum in one class period. These key features allow for a more appropriate learning pace for students at all levels of mathematics. Our math program provides higher-level opportunities for advanced learners, and improves the overall math learning environment as is reflected in Farmington View's school-wide SBAC test results that exceed both the Hillsboro School District and State of Oregon performance. Our math specialist provides aid to teachers in all grades and adds staffing flexibility. Furthermore, as a STEM (Science, Technology, Engineering & Math) school, the success of our math program is even more relevant and crucial.

Community Sponsorship is more important than ever as our mandatory fundraising goal continues to increase each year. This program has depended on generous community support and sponsorship for many years. In addition, we employ many other fundraising routes such as grants, individual donations, employer donation matching, bottle/can recycling, annual jog-a-thon, holiday bazaar, BINGO night and restaurant nights. Our Community Sponsorship program is an exceptional opportunity to gain recognition for your business while making a difference in the academic lives of our Farmington View students. We appreciate your consideration of investing in your local community as a whole.

FVPAE is committed to ensuring the success of our math program, our children's future and our community. Farmington View families are truly grateful for and supportive of our Community Sponsors. We look forward to your support and making a difference with math at Farmington View Elementary.

With warm regards,

Kristin Henry  
FVPAE President

# Community Sponsorship Program

## Making the Difference with Math

### BRONZE Level - \$100 Donation

- Inclusion on our Honor Board in the Farmington View Elementary School lobby
- Framed Community Sponsor certificate for you to display

### SILVER Level - \$250 Donation

- “Bronze” level benefits, *plus*:
- Online recognition including Facebook, FVPAE and FVES websites
- 4’ x 4’ Medium Signage on school fence along Highway 219

### GOLD Level - \$500 Donation

- “Bronze” and “Silver” level benefits, *plus*:
- Recognition in our school directory
- Farmington View Elementary T-shirt (*upon request*)
- 4’ x 8’ Large Signage on school fence along Highway 219

All sponsorship will be recognized for 12 consecutive months. An upgrade to increase your support can be made at any time for any remaining months. We are always working to find new ways to honor our sponsors and will notify you of any changes along the way.

Our goal is to provide all sponsors with relevant exposure to our school and local community. We have a very active parent organization with families who take pride in supporting the businesses who support our kids.
