Transportation Services

Transportation services will be provided in accordance with all applicable state and federal laws and regulations pertaining to student transportation, applicable Hillsboro School District policies, and these administrative regulations.

1. Transportation Eligibility

Transportation will be provided to and from a student's primary address and the school or program to which the student is assigned by the District when the distance from the primary address to school, as measured by the District's bus routing software program, exceeds the maximum allowable walking distance established by State Regulations. Transportation will also be provided when the student's primary address is covered by a State approved Supplementary Plan. Students attending any school or program on a voluntary basis other than the school or program normally assigned by the District shall not be eligible to receive transportation services.

2. Allowable Travel Time

Students eligible to receive transportation services whose primary address is within the Hillsboro city limits will normally have travel times from their assigned bus stop to their assigned school of less than 60 minutes. Students placed in special programs, or students whose primary address is outside the Hillsboro city limits will normally have travel times from their assigned bus stop to their assigned school of less than 90 minutes. Exceptional circumstances, as determined by the District's Director of Transportation, may require travel times that exceed these parameters.

3. Bus Stops

Students eligible to receive transportation services will be assigned to a group bus stop established by the District. Bus stops shall be located to support the overall safety and efficiency of the transportation system. Students up to grade 6 may be required to walk up to 0.25 miles to their assigned bus stop. Secondary school students may be required to walk up to 0.5 miles to a bus stop.

4. Alternative Service Addresses

Transportation service may be granted to students to and from an alternative address other than their primary address. This courtesy service may be provided only if, in the sole judgment of the Hillsboro School District, no additional costs will be incurred and the following specific criteria are met:

- The alternative address is within the service area for the student's assigned school or program;
- Service to the alternative address is to be provided on a fixed weekly schedule;
- A seat is available on the bus route serving the alternative address; and
- A bus stop serving the alternative address already exists and is assigned to the bus route.

In addition to these criteria, transportation services may be provided to and from community partnership organization locations that are specifically approved by the District.
